

2009 Model Selector Guide

Below is a listing of some common pellet, corn and multifuel stove models

If yours is not listed use the following guideline for selecting a Sentry Model to power your appliance:

Check the appliance manufacturer's maximum input power name plate rating.

If it is below 600 Watts, select Model SF707.

If it is above 600 Watts but below 1000 Watts, select Model SF 709
